

New and improved resident rooms

WELCOME

A COMPLETE REHAB PROGRAM

The Mission Complete Rehab program at Columbus Health and Rehab is designed to help patients recover quickly and comfortably following an accident, illness or surgery.

We offer personalized and “complete” rehab

programs including physical, occupational and speech therapy so that patients are able to achieve their personal goals and get better. In addition, because we think enrichment and wellness go hand-in-hand, in addition to excellent therapy services, we

offer a number of amenities and activities.

The goal of Mission Complete is to give every patient the care and resources needed to get them back on their feet so they can return home.

Private dining room for residents and families

Updated Transitional Unit

Spa

At Columbus Health and Rehab, we're excited about the completion of our recent renovation and the myriad new services and amenities it has created. We think you will be too! From new rehab equipment and an updated Transitional unit to a bright and colorful new look, we can now provide an even higher level of quality care for our existing residents and an attractive new option for those in need of short-term and /or long-term care.

What's new and improved?

- New therapy and gym equipment
- Updated transitional unit featuring kitchen set up with new appliances, washer / dryer and tub and handheld shower
- New front entrance and exterior building improvements
- Upgrades to resident rooms (paint, furniture, fixtures)
- Private dining room for residents and family members (seats 10)
- New bistro featuring back lit wall with birch trees
- Short-term resident dining room and lounge
- New conference room
- New computer work station
- Bathroom remodels
- Two new spas
- New barber and salon space
- New furniture and lobby space

Remodeled rehab facility and new equipment
